Welcome to PIQUE Learning. Getting Started Is Easy.

Who We Are:

Co-founders Helaina Altabef and Sarah Marmor are experienced classroom teachers who created PIQUE Learning to offer nuanced, individualized one-on-one education that brings forward children's unique skills, talents, and intellectual gifts.

What We Offer:

Our programs teach reading, independent thinking, comprehension, and problem solving skills to give children a strong foundation for learning across all subjects.

Grade Levels We Teach:

We focus our education on students from late elementary school to early high school. It is within these grades – particularly the middle school years – when ensuring a mastery of core reading and thinking skills is essential, before a child faces more advanced conceptual and abstract coursework in the later grades.

Our Programs:

Each program is 20 weeks long and includes one hour of individualized tutoring per week in the comfort and convenience of your home. Twice-per-week sessions are available to parents and students who would benefit from the additional instruction.

Fees and Locations:

We charge a flat fee per 20-week program, and we travel throughout Metro New York, including Manhattan, Northern New Jersey, and Westchester, Rockland, and Fairfield counties.

What Others Are Saying:

"PIQUE Learning gave me the tools to succeed in high school and allowed me to realize my full potential. I can't thank them enough!"

"Before PIQUE, my daughter would look at an assignment and not know where to start. Now, she has a tried-and-true system that helps her in all her classes."

"To this day, I've never had a better teacher."

Achievement, Independence, and Confidence.

Step 1: Complete the Assessment Below

Use the chart below to check off the level you think best characterizes your child's current attitude toward school and academic performance:

Check off:

	Level 1	Level 2	Level 3	Level 4	Level 5
Attitude/ Emotion	<ul style="list-style-type: none"> • Defeated by school • Emotionally paralyzed • Doesn't want to go to school 	<ul style="list-style-type: none"> • Needs constant support with writing/homework • Lacks confidence 	<ul style="list-style-type: none"> • Indifferent to school, not invested • Lacks motivation 	<ul style="list-style-type: none"> • Motivated but feels held back from achieving his or her best 	<ul style="list-style-type: none"> • Independent, motivated, and curious learner • Confident and achievement-oriented
Performance	<ul style="list-style-type: none"> • Writing has no structure • Cannot develop ideas • Does not understand assignments • Little to no retention of information 	<ul style="list-style-type: none"> • Doesn't extract meaning from the work, "going through the motions" • Writing lacks organization • Approaches assignments but gets "stuck" • Struggles to elaborate or expand ideas 	<ul style="list-style-type: none"> • Average performer, not competitive • Able to read and understand content, but has difficulty with higher-level thinking • Writes simplistically, with basic vocabulary • Work lacks connection to larger contexts 	<ul style="list-style-type: none"> • Trouble expressing words, ideas, and concepts • Difficulty with higher-level problem solving tasks • Able to contextualize work 	<ul style="list-style-type: none"> • Completes homework independently • Has higher-level problem-solving ability • Can contextualize across subject matter • Proficient in developing and expressing ideas and concepts

Step 2: Let's Map Out a Plan Together

We have helped transform many children into confident and motivated learners and self-starters. If your child is not performing at an optimal academic level, contact us today to discuss a tailored approach that will give your child a strong foundation for learning, with results you can see in and out of the classroom.
